

Employee Leave Policy

Company: AI Knowledge Solutions Pvt. Ltd.

Effective Date: January 1, 2026

1. Annual Leave

Employees receive **20 days of annual leave** every year. Annual leave is intended for vacation, personal activities, and planned time away from work.

2. Sick Leave

Employees receive **10 days of sick leave** per calendar year. For absences longer than three consecutive working days, the employee may be asked to provide medical documentation.

3. Casual Leave

Employees may take **6 days of casual leave** per year for short-term personal requirements. Whenever possible, employees should request casual leave at least one working day in advance.

4. Leave Request Process

Employees must submit leave requests through the company's leave management system. The request should include the requested dates and the reason for leave. Planned leave should be submitted at least three working days before the start date.

5. Manager Approval

Leave requests require approval from the employee's reporting manager. Approval depends on team workload, project deadlines, and staffing requirements.

6. Public Holidays

Company-declared public holidays are separate from annual, sick, and casual leave balances and do not reduce an employee's available leave balance.

7. Carry Forward

Unused annual leave may be carried forward to the following year, subject to company limits. Unused casual leave and sick leave do not normally carry forward.

8. Leave During Notice Period

Employees serving a notice period should obtain manager and HR approval before taking planned leave. The company may restrict non-essential leave during the notice period based on business requirements.

9. Emergency Leave

In an emergency, employees should notify their manager as soon as reasonably possible. The employee can submit the formal leave request after returning to work if prior submission was not possible.

10. Contact

For questions about leave balances, approvals, or exceptions, employees should contact the HR department.
